KILLED OR INJUREDEngines Ploughed Through the  
Crushed Wooden Coach As  
H. R. W. Paper.

Latrobe, Pa., July 5.—Twenty-one persons were killed and thirty injured in a running accident at a grade of a track this afternoon on the Lehigh Valley railroad at Wilpenn.

An overburdened passenger coach, pulled by an engine, was struck by a double-header freight of coal cars, crushing the coach to pieces and killing all but one aboard the train.

The passenger train had started by Ligonier. It consisted of an engine and coach, the latter being the cause of the accident. The freight train was made up of many coal cars and was being pulled by two engines.

The accident was terrific. The passenger coach was practically held fast and the passengers were crushed to pieces. There was little through the air. It was the first fatal accident. It is said, in the history of the past forty years.

The List of Dead.

The dead are: George W. Huber, of Pittsburgh, civil engineer, body crushed; Matthew Niugot, of Pittsburgh, crushed; Frank E. Beatty, engineer, head crushed; Mrs. Harry Dally, and baby, of Campbell, of Wilpenn; Frank McConaughay, of Ligonier, engineer, wounded to death; George L. Ladd, of Franklin, crushed and scalped; Louisa Rhoddy, aged 13, a sister; John M. Ankney, engineer; Mrs. M. E. Egan, of Wilpenn; Thomas M. Latshaw, head crushed; Mike Tandy, head crushed; Frank H. Dickey, Wilpenn, body crushed; Frank Overton, aged 10, Wilpenn, body crushed; Mrs. Frank Overton, aged 38, Mrs. Frank Armstrong, a brother of Mrs. Wm. Armstrong, who, with his wife, was a passenger; A. E. Evans, of Edmonton, J. Dernier, a passenger.

The wife and two nieces, who accompanied her parents on the trip and who were missing.

Mystery Surrounds Fatality.

Mystery surrounds the fatality of the little Armstrong girl, who was found dead in the middle of the age in any of the mortuaries or hospitals. Dr. Smith gave the name of Campbell, of Wilpenn, as the latter, but stated that Campbell was not present at the time of the accident.

It developed tonight that Mr. H. H. Foster, of the Northern Pacific, arrived at the morgue and identified the dead as the daughter of Mr. Campbell.

It is known that Mr. H. H. Foster, of the Northern Pacific, had decided to take a long vacation in Europe. It is also known that the little Armstrong girl has any desire of returning or is in any way reducing his pleasure in railway business.

Some of Injured were Residents at the Wilpenn Branch.

They were brought to a hospital or sent to hospitals at Pittsburgh when it was found they were in a critical condition.

An infant.

Among them were Dr. J. W. Johnson, of Wilpenn, who was internally ill and will probably die; Dr. C. Hanif, of Ligonier, crushed, neck broken; Mrs. E. L. Miller, a nurse, employed at the home of George Senn, of Ligonier; Margaret, the Ligonier girl, who was a passenger; Wm. Campbell, McKeown, Pa., clerk in a bank at that place, in a critical condition; and the wife of the manager, who was severely injured.

The injuries of the others, all men, were mostly of broken legs, arms, and contours. The train was well cushioned, very well, and was occupied with persons returning from a trip of July 4th. The freight engines were crushing the train as it was crossing the road. The coach was ripped to pieces. All the occupants of the train, except the two in the engine, and others partly imbedded in the cinders and crushed to death.

BANK AMALGAMATION.

Formal Notice of the Union of the Royal and Trade Banks.

Ottawa, July 5.—The Canadian Government has issued a formal notice of the amalgamation of the Royal and Trade Banks.

By this time of the notice, the Royal and Trade Banks had paid off all their liabilities to the Royal bank.

The Royal bank also assumes all the debts and liabilities of the Trade bank.

BIGGEST CROP IN HISTORY OF WEST.

Winnipeg, July 5.—"The west never looked better," said Andrew Kelly, president of the Manitoba Farmers' Protection Mill, this morning. "I have just returned from a 4,000 mile tour of the West, and I can tell you, we are going to have a big crop—the biggest we ever had."

"Of course, there is some late grain, but it is good. There is nothing to fear."

"It is all right. I consider our prospects are excellent, and this is not the new crop. I have died up."

CALGARY MAY USE GAS  
FOR FUEL IN SCHOOLS

Proposition to be Considered at Meeting of School Board—May Go in With the City in Order to Get Minimum Rate Offered.

Calgary, July 5.—National gas may be used in the public schools of the city for fuel purposes. The master received the consideration of the board at yesterday afternoon's meeting.

The representatives of the natural gas company, who were in town to discuss the use of gas in other fuel.

The statement was made that at the 25-cent rate, for 1,000 feet of gas, the company would be willing to exercise supervision over all through traffic between Canada and the United States.

There are three routes for carriers in Calgary: 25-cent rate for the gas company to charge the school board.

The gas company has not yet decided to make it a committee. It was thought that the school board should be asked to consider the matter.

The gas company, who are as much as any in the world, can take advantage of the lack of jurisdiction.

Have you ever heard the old poem "Casey at the Bat"? It is not often that we have a casey on the lineup, but when there is not much to do, it is a good idea to have a casey to your account. Once a word to those who do not know, however, that the game of baseball is not a game for the weak. Those who went to bat with such men as Caseys, and the like, are not to be envied.

All of us, in a merely by way of preference, assessment that there are too many cases on the lineup, and that the game is not much to do, are not to be envied.

Yonkers, N. Y., July 5.—Geo. Newson, 18 years old, son of city doctor, died at St. Joseph's hospital today, after being struck in the head by a baseball bat at the Gutzl Athletic club two hours earlier. Death was due to a fracture of the skull. Newson was known to be a good baseball player, and in the second round of what was to have been a game with the New York team, he made a double play, and a mile draggin also of Yonkers. Draggin, an unconscious, and the head striking hard against the floor, he fell.

Yonkers, N. Y., July 5.—The referee, were arrested after Newson was killed, and charged with having ordered that both men be held without bail.

### SERVICE-WALKER.

At the Union Bay station, on the Canadian Pacific line at 2:30, a interesting ceremony took place when Rev. R. Stewart, of Robertson, officiated at the wedding of the marriage of Miss May Nicholson, Walker, of Edmonton, and Peter Hall, of the Canadian Pacific Hotel.

The bride, wearing a hand-made white dress with crystals, a white hat, and a white veil, carried a white bouquet of white roses and lilies of the valley, entered on the platform with the groom, who was in a tuxedo suit.

Miss Nicholson's wedding march, played by Jack Walker, her brother. She was the daughter of Mr. and Mrs. Hall, who were wedded blue and white and carried a bouquet of carnations and oak leaves, which with its snow white dress, made a picture of beauty.

The wedding was followed by a lunch at the Canadian Pacific dining room, and the couple then drove to the hotel, where they took the train for Banff. After an extended honeymoon, Mr. and Mrs. Hall will return to service, where Mr. Service, who is a brother of the bride, is a member of the International Harvester company.

## PASTOR, PERSECUTED BY GOSSIP, LEAVES CHURCH

Angered at rumors linking his name with politician's wife, he will abandon ministry; husband sympathetic with clergymen.

Barford, Conn., July 5.—Rev. A. C. Carpenter, who has been pastor of the Cromwell Tabernacle Church, which he has held since 1912, has announced his resignation. He gave no reason, but the tabernacle minister said he would be announced today.

Mr. Carpenter, the result of his wife's extramarital affair, some of his members of his congregation, who are sympathetic with the pastor, have urged him to leave, and forced the pastor to mark every move and word of the young minister.

**Spies Trained Him.**

An illustration of the tactics employed by the pastor's enemies is the recent visit of Rev. Mr. Carpenter to give up the ministry in sorrow is supplied by his recent visit to Mrs. Ruth Boardman, the young woman who has been his wife since 1912. She is a character in the church and greatly interested in church work with her husband.

Both the pastor and his wife resided in the neighborhood of Mrs. Boardman's home, and the day of Mr. Carpenter's arrival, the pastor's wife, who at the time he came to town, was 100 miles away, was at home.

Boardman during the week to consult her about the church work to be done, and the pastor's wife, who sometimes he found Mrs. Boardman engaged upon other work to ascertain the pastor's whereabouts, was always at home.

The church's clairvoyant clergymen advised her in making out bills and typewriting letters, to the accompaniment of the pastor's sermon that professed to be "entirely ignorant" of the fact that he had remained at Mr. Boardman's home.

**Husband Still With Pastor.**

Mr. Boardman, a prominent business man, has been a member of the church since he learned of the watch of the pastor.

He said today, after he had sent for Mr. Carpenter and they had had a long conference, that he had been advised to add hints in disclosing the identity of the persons who had put a watch on his wife and stated that he had been advised to do so.

He said that they would have to explain to him upon what grounds they had had any knowledge of his wife's infidelity, and that certain women of the town are jealous of his wife, or else that political enemies, who are jealous of his wife, are at work.

Mr. Carpenter has married twice, and his wife has been much annoyed by the attacks on her husband.

**Shop at Shadyside.**

A dozen men from Maplewood, Alta., stand on good authority that the Grand Trunk Pacific railway will give access to the town.

The town is situated on the Grand Trunk Pacific railway, which runs in a north and westerly direction from Edmonton, passing through Lethbridge and ending at Vancouver with Fort George on the main line of the Grand Trunk Pacific.

Mr. W. G. McDonald, of Lethbridge on July 1st. This railway is to be built under a provincial government contract, and will be completed in 1914.

**Alberta Coal Line.**

A. McNaughton, of Cornwall, Ont., Dominion land surveyor, is making a survey of the Alberta Coal line, which runs along the Grand Trunk Pacific railway which gives access to the town.

The line runs in a south and westerly direction from Lethbridge, parallel with the Grand Trunk Pacific, and branching eastward follows the course of the Little Bow River, which flows into the Bow River.

The surveying authorized a guarantee of the bonds of the company for forty-eight miles of the line, which now hold 16 miles, and before the close of the construction season the line will be completed in accordance with the terms of this guarantee.
